

JAMES JOSEPH SEWELL

FRONT-END ENGINEER

I am a front end engineer, I enjoy developing dynamic and interactive web applications using javascript and javascript frameworks like React.js. I use git and github for version control. I am hungry to learn new technologies and hone my software development skills.

Tech stack: MongoDB, Mongoose.js, node.js, Express.js, Backbone.js, React.js, MaterializeCSS

Freelance Designer

2013 - Present

Out of high school I began freelancing, starting in the online marketplace. I worked with clients ranging from a consulting and performing hypnotherapist to a local skateboard startup company. Providing value by way of designing marketing materials that enabled them to land deals, sell more product, and expand their reach

Security Officer

Sekisui Specialty Chemicals
Pasadena, TX

2015 - 2016

Secured the client's chemical plant investment and assisted staff overnight. Administered site access to employees, performed routine safety inspections, enforced site policies and safety procedures

Graduated from The Iron Yard Houston
12 week immersive course
